

Amos Youth Centre

Faith Chama Musapu is my name and iam doing my grade (2) twelve at Wabenge high school, It's my final year at secondary school and this makes me a very happy person. I thank the AYC for the work that they are doing in their community for the youths, by extending a hand a hand of gratitude to all those that can't help themselves.

And I would also love to thank the African Education programme for the work they are doing in educating youths in Africa, particularly here in Zambia, this gives a greater chance to all those youths who left school some time back because of lack of sponsorship and are willing to get back to school.

I only wish that sponsorship would last up to university level as iam a double orphan and it has not been an easy task having to raise money for school each year!

Faith Chama Musapu.
