

# AMOS YOUTH CENTRE

KENNETH PHIRI

WHY SCHOOL IS IMPORTANT?

My name is Kenneth Phiri. I am a boy aged 15 years, am doing my grade eleven at Nabuye High School. I stay in Kafue, Shikwese site and services. I was born in 1990.

We are three in our family two girls and am the only boy. Our first born did not finish her education because of the problems which faces her. Even our second born girl didn't finish her education because of these problems.

- Our Mother died so as to lose parental care
- There was no one to support them since all our family members left them just like that.

Happiness which am faced with is that AMOS YOUTH CENTRE was enrolling youths who are lacking support ~~and~~ to enroll so as to gain support.

Right now my grandmother is the one who is taking care of us. From the moment my mother died in 1996 up now. Because of problems which faced me after my mother's death, the ~~lead~~ lead to school losses. And I gain the support from my grand mother.

To make it matters worse she is a lady who is not married and she is not working. We find money through doing the business, she also a sick person, she has got, ARTHRITIC, BP and Sugar disease.

## WHY SCHOOL IS IMPORTANT?

School is important to me because for me to start working, working education must be provided. Without school/education, I can end up being a street kid. So am very happy because of the AMOS YOUTH CENTRE shall be my parents.

I have enjoyed at the seminar because of the food you have provided for us. As I am, I am also waiting for another very day when we shall have another meeting. Am pleased and I am saying that continue with the same spirit. Drinks and biscuits even babogames have been provided.
