

Dear A.F.P

I am a Zambian boy aged 17. I live in Shikabwe with my mom and 12 of us in our family. My father died when i was in grade (two) 2 that is in 2001, and since then life has not been easy because my father was the one who was providing every thing we needed ie school fees and other needs at home. Regardless of this, i continued with my education, working hard at school and getting the best i could in all the subjects i learn. Mom being unemployed she struggles to get us to school.

After writing my grade 9 examinations i was selected to go to grade 10 at Naboye High School where an NGO called changes II offered to sponsor me only for a year (2009). By the end of this year they are stopping to sponsor me and iam very worried about how my education will be for next year (2010). And thats why iam requesting for sponsorship from you so that if possible i could continue with my education next year (2010) when i will be doing my eleventh (11) grade. I promise to work hard at school and not disappoint any one who offers to sponsor me.

I will be very grateful if my application will be considered

Yours Faithfully,  
Abiton Lubingu.
