Re - Application for sponsorship to college

Dear Sir / Madam

My name is Faith Musapu and I am a faithful member of the Amos Youth Centre. I have been a member since 2006, and I completed school last year at Naboye High School, this was made possible by the African Education programme who sponsored me.

I am nineteen years old and a double orphan, since both parents passed away I have been living with my aunt, she has taken care of me real well.

My aunt is taking ^{care} of so many orphans and has three (3) children of her own, she cannot afford to take us all to school as much as she would love to see us all get educated.

I applied at the National Institute of public Administration (NIPA) and was accepted to study human resource management at the institution. I would be very grateful, thankful and will do my level best if I am offered sponsorship.

If I am educated it will make a huge difference in my extended family as they would not only

have

my county alone to look up to and this in itself will help reduce poverty in my family and the country at large, because a little gift goes a long way.

Attached to this letter is my acceptance form and my school results.

Thanks alot in advance.

Yours faithfully

Feuth Mubson.
