

# APPLICATION FOR SPONSORSHIP

Dear AEP

My name is Esnart Nsofwa I am a girl aged 15 years and I am the fifth born in my family, we are 3 girls and 3 boys. I am applying for next year sponsorship and I am currently doing my Junior Basic Education at Shikowor Basic School in grade 4<sup>th</sup> and I am doing well at school and my favourite subjects are English, civics, mathematics, science and history. My hobbies are studying, reading novels, dancing and going to church. When I complete my education I want to become a doctor.

I am asking for sponsorship because there is no one who can help me in my education. That is why I am looking forward for someone to help me. My parents do not work only struggling to sustain our lives. My parents always advised me to work hard at school but only your assistance will fulfill my dreams.

I will be very glad and grateful if my application shall reach your favourable considerations.

Yours faithfully

Esnart.
