Dear Sir/Madam

RE: APPLICATION FOR SPONSORSHIP

I am a young man aged 19 and was ^{born} on the 16th of October 1989, my full names are Happy Phiri. My father died when I was in Grade 10 due to malaria and when he died he left my mother with 5 children to look after. Because of the pressure my mother started a business which involved the selling of fish at Soweto Market, so that she could raise money for our school fees.

My ^{elder} sister dropped out of school when she was in Grade nine and later got married. My elder brother completed but because of not paying school fees he was not allowed to get his results. I managed to complete with help from my elder sister and my mother.

Since my father's death my mother has been finding it difficult to pay for me and my 2 brother and sister. The money that she raises from her fish business is not enough to pay for my brother and sister's school fees. And since I have completed my high school am her only hope ~~and~~ but she has been unable to raise money for me to go to college/university and ~~because of~~ this is why am applying to your organisation for sponsorship so that I could help my family and also be able to contribute to the development of the Nation.

I will really appreciate if ~~the~~ my application will be considered and I pray that God bless you.

Yours faithfully,
Happy Phiri.
