Dear AEP

My name is Kafula Chisanga I live in Kafue in a place called Shikoswe. We are five in our family. After my father passed away on 21<sup>st</sup> August, 2003 I have two brothers and one sister. When my father died my mother started selling fresh fish. This is how my mother managed to feed us. I am in grade nine so I am studying very hard to pass the exam. I also help my mother to do some house work such as sweeping, cooking and carrying fish to the market.

I want to be sponsored by African Education Program so that they can help to get education and at the end help my family to live well in life by helping me pay for my school fees and for my studies.

Yours loving

Kafula
