

DPUR E. A. E. P

R. E APPLICATION FOR SPONSORSHIP

My name is Musungu Musungu live in Shikoswe.
Last of last year I was in grade 7 at Shikoswe Basic School. ~~With~~ With the reference to the above mentioned matter I am here by applying for sponsorship in year organisation.
I am a boy aged 17 years: last of last year I wrote my grade seven examination at Shikoswe Basic School.
When received my results. I found that I had a certificate for grade eight.

My Guardian (uncle) couldn't afford to pay the money for my education because she doesn't work same as my aunt, she also finds difficulties to look for money to pay for my education. and this has resulted in stopping of school.

During that long break I had. I was left other to collect water, chopping wood also preparing to cultivation at the field. NEVER THESE I was also trying by all means to do all what ever I can to raise money for education. I was also trying to look for piece works in order to buy clothes, food shops and other things.

I am kindly asking the African Education Program (A.E.P.)

to be an engineering. X

I will be very happy and glad if my application is given
- a favourable consideration ~~and~~ ~~if~~ ~~it~~ ~~is~~ ~~not~~ I will be happy to
have my child's dream to come true

Yours
