

AFRICAN EDUCATION PROGRAM

I am a male Zambian aged 20 years. NYAMAZANI ENOCH TEMBO is my name. I completed my Secondary School in 2008 and obtained best results as at the AMOS youth Centre. I applied at the University of Zambia in the School of Humanities and signed ECONOMICS as Course of Study. Right now I am just waiting for the reply. I hope and trust that I will be picked.

My father being a single parent faces a lot of challenges to support the family of six (6) children. Being just a simple fisherman, he carries a heavy load to meet the demands of the family. I feel for him at times because he doesn't even rest until he sees to it that his children's ~~are~~ ~~are~~ demands are met.

However since you came in to support me for my education, my father has been relieved with one child. For that I pray day and night to GOD that he should continue blessing you so that in return you also assist the venerable children.

In a Nut Shell, now that I am heading university level, I pray that you will continue supporting me by paying my fees so that I can achieve my goals. May GOD bless you in abundance so that you can continue the good work you have started.
