Dear Sir/Madam

RE: APPLICATION FOR SPONSORSHIP

I am here by applying for sponsorship so that I can continue with my education and become a better person in life.

I am a male of 13 years of age and I am currently doing my grade 7 next year & will be in grade 8. I am born from a family of three and we are all boys.

It is really a challenge for me to successfully complete my school being that I don't have parents to sponsor me. It is from this background that I am asking for sponsorship so that I complete my education realizing that education is the ^{only} key to success. I would be very grateful if application will be considered.

yours sincerely
Richard Phiri
