TO THE BOARD

AFRICAN EDUCATION PROGRAM

Dear Sir / Madam

Re: APPLICATION FOR SPONSORSHIP.

I wish to apply for sponsorship so that I can continue with my education.

I am a single orphan aged 23, I completed my high school level in 2006 at Nabaye High School. I am currently one of the senior youths in charge of condoms and I sensitise fellow youths on dangers of the deadly pandemic which is believed to be high in the sub Saharan countries, Zambia inclusive; at the same time, I help the Parents and Agriers by collecting end of term results in schools when they are held up with other programmes and I go round schools to announce to pupils been sponsored by African Education programme if there is a meet to take place. This year am rewriting three subjects in were I have weak passes, this was not due to laziness in studying but due to long term of illness that I went through during that year i.e.

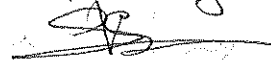

(heart problem) it contributed a lot to my performance, as for now am sure that every thing will be okay and I wish to see myself persuing a diploma in Agriculture at Zambia College of Agriculture in Namwe next year in August, because this is when the first semester starts. P

Personally I see many African Countries to be third world Countries due to high levels of poverty, my aim is to make a difference so that this can be reduced, this can only happen by acquiring more knowledge through studying in high institutions, but it's difficult for me to find my self there and my family has no means of taking me there.

Therefore I humbly kneel down before the board of African Education Programme kindly to me help me achieving my goals by awarding me a Sponsorship to go into College so that I can acquire more knowledge ⁱⁿ ~~about~~ Agriculture, for I believe that knowledge is power and it's one of the easiest keys to success in ones life.

In Conclusion, I would like to state that once offered this Sponsorship you will not be disappointed.

Thank you in advance

Yours faithfully,

Nathan Champatia
