REF: Application for Sponsorship

My name is SMART Banda. I was born on the 10th of October 1986.

Currently am a student at the university of Zambia doing a Bachelor of Science degree ~~program~~ ^{Am} in my second year at the same institution.

Am a single orphan as my father passed on when I was doing my Grade seven (7).

Am very ambitious and enjoy studying, upon completing this programme (BSc), I hope to proceed to med school where I can qualify as a medical doctor.

It's to this effect that am asking your Organisation to help me further my studies by sponsoring me as to enable me complete my programme at Campus. Currently, the government pays 75% of my Tuition fees (Bursary), so I would be more than great full if you would assist me by paying the remaining 25% Tuition fees.

I would be more than happy if my application is considered.

Yours faithfully

Banda SMART
