

Amas youth Centre  
Kafue,  
Zambia

24<sup>th</sup> September, 2009.

TO AEP (AFRICAN education  
Program).

REF: APPLICATION FOR SPONSORSHIP

With reference to the above statement, I am hereby asking  
for sponsorship.

I am girl aged 16, doing my grade II at Nabaye  
high school and go to school in the morning. I ~~would~~ live  
with my mother as my father passed away in 2006. I have  
3 brothers and one sister, the eldest now <sup>and sponsored by mum</sup> at college level. ~~Myself~~  
of these I am the third child, our house has running  
water but no electricity. But with time we have learnt to  
cope with this. I help mum with the house chores eg cooking.

Back to me, I am a person who believes that education  
is the greatest key to development. Last term I had 14 points of  
which myself I <sup>am</sup> not proud of, because I wanted to get better points.  
My hobbies include reading stories, discovering new things eg when  
studying and learning. I also like <sup>and singing</sup> drawing. When I grow up I want  
to be a doctor, as I enjoy science. But if my education is cut <sup>off</sup>, I  
don't think I will have a bright future. At the centre everything  
is fine, our matrones are taking good care of us and also, many  
<sup>now</sup> children have hope that they will have a future because of this  
program.

Lastly I want to promise that I will do my best and not  
let your efforts be in vain. My God richly bless you all.

yours  
faithfully

Precious Kabwe
